Art Unit: 3617

1. In view of the papers filed September 13, 2001, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the addition of Pascal Seradarian as one of the joint inventors.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

2. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the prior art of record because a wheel structure comprising a first air duct in the disc of a wheel communicating with the interior of the rim and the side wall; a second air duct extending between side walls of the disc, and a valve to control the flow of air between the ducts is not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3617
